CORNER JOY

PHASE II

Towards the jungle, the lung of Seedness, lies Corner Joy. A refreshing shower from which, and through the unique inhabitable space, the first contact with the outside world is made.

The seed hangs in the center of the pool, over three meters long, where you can immerse yourself and emerge to see the illuminated sculpture as a reminder of new beginnings. Corner Joy is a grand interplay of fabrics, mirrors, stones, and woods; all spaces coexist.

The bed is wrapped in curtains that give it prominence and enable an integrated social space between terrace and interior. In Corner Joy Seedness, a new beginning awaits.
