PHASE II

Towards the jungle, the lung of Seedness, Joy opens. A refreshing shower from which, and through the unique inhabitable space, the first contact with the outside world is made.

The seed hangs in the center of the pool, which is over three meters long; you can submerge and emerge to see the illuminated sculpture as a reminder of new beginnings. Joy is a great interplay of fabrics, mirrors, stones, and woods; all spaces coexist. The bed is enveloped in curtains that provide privacy and create an integrated social space between the terrace and the interior social area. In Joy, Seedness, a new beginning.
