SKY DREAM

PHASE II

SKY DREAM

PHASE II

Upon entering, you are enveloped in a sense of peace. It's as if nature, our jungle itself, weaved with the light penetrating through its foliage into the large windows, imparting softness and continuity to the spaces. Reflections in the mirrors above the furniture provide continuity and allow you to feel that there is no end. Resting in the pool on the terrace while observing the harmony of the integration of indoor and outdoor spaces. A large painting commissioned to Elena Toussaint, with its blend of colors, recalls the sensations of the sea and connects us.

A place to share and comfortably enjoy in company. Dream is an idyllic space made for you.
